S04-E014 R001: selecting a controllable repair from S04-E013
A Logged minibatch loss (12 runs)
sampled displacement loss
optimizer step
B Final minibatch is not the full objective
seed 1
seed 7
seed 19
final logged minibatch loss
exact full-field loss
C Error shared across seeds
fraction of mean weighted MSE
shared bias
seed variance
c20
c60
c82
c83
D Displacement error on active-p99 nodes
error fraction
domain-mass fraction
